

**STORMWATER MANAGEMENT PROGRAM
NORTH YORK BOROUGH
YORK COUNTY, PENNSYLVANIA**

NPDES MUNICIPAL SEPARATE STORM SEWER SYSTEM (MS4) GENERAL PERMIT

The Stormwater Management Program for North York Borough, York County, Pennsylvania (NPDES Permit No. PAG133581, Authorization ID No. 949687) consists of the following six Minimum Control Measures (MCMs):

- MCM #1: Public Education and Outreach on Stormwater Impacts
- MCM #2: Public Involvement/Participation
- MCM #3: Illicit Discharge Detection and Elimination (IDD & E)
- MCM #4: Construction Site Runoff Control
- MCM #5: Post-Construction Stormwater Management (PCSM) in New and Re-Development Activities.
- MCM #6: Pollution Prevention/Good Housekeeping for Municipal Operations

The goal of the Stormwater Management Program, above Minimum Control Measures and the MS4 General Permit is to reduce stormwater pollution in order to improve water quality in the local waterbodies and ultimately the Chesapeake Bay. The program provides for public education, requests public involvement and provides a means for the Borough to control stormwater discharges within the Borough limits.

The Borough will conduct a yearly public education and outreach presentation on the MS4 permit to discuss the program, update the public on the program status and solicit public involvement/participation. The presentation in 2018 will be held during the regularly scheduled Borough Council meeting on September 11, 2018.

One way residents can help is to report illicit discharges into the Borough's storm sewer system. Please contact the Borough if you have any questions.
