NORTH YORK'S SEWERAGE SYSTEM PROBLEM

From complaints made during the year to the Borough Council, we are aware that citizens comprising approximately 15 families, are desirous of improving the disposal of their sewage. Efforts by these citizens, either as a group or as individuals, has been extended to the State authorities. The State has offered suggestions. The press has printed information as news concerning the complaints, and the suggestions for the remedy of the conditions.

The suggestion from the group of North York citizens, the State, and the Press, seems to be: - that the citizens of North York Borough install a Sanitary Sewerage System.

Mr. President, as you are aware, no-one has given this problem more serious thought than the members of Council, individually and collectively. Having the full facts at our disposal, we think it fitting and proper to state the Borough's position in this matter at this time.

When the representative from the State Government paid a visit to a meeting of this Council, he stated that a project of this kind could not be started for at least 5 years following the close of the war.

Furthermore, York City Disposal Plant would have to accept our sewage for disposal. That plant is now operating about 160% of capacity intended for the size of the plant. The sewage from North York Borough could not be accepted in addition to the present load. Therefore, North York would have no place for disposal until a larger and more modern disposal plant is erected and in operation, by the city of York.

- - - - - - - - - - - -

FINANCING THE PROJECT

For the next two years North York must meet fixed charges for Sinking Fund which will complete settlement of present Bond indebtedness for paving, and I think the Borough also has P.W.A. obligations requiring settlement. We are now employing the 15 mills tax, which I believe is the limit permitted by law. The 15 mills provides a dollar and cent tax revenue of about $14,000.00. The administration expenses (very carefully budgeted) totals about $10,000.00. Administration of course provides for garbage collection, street lighting, rental of fire plugs, paving and paving repairs, policing, fire protection, etc. The present paving indebtedness will be paid in full in 1947. Following full settlement of debt, North York should have between $4,000.00 and $5,000.00 per year for Borough improvements, providing the same millage for Borough taxes is maintained. It is quite evident that North York could not think of increasing its debt before 1947.

If a sewerage system could be installed, the total cost of engineering, installing, legal and bond issue expense would not be less than $200,000. (Present day costs.) Liens on each property would have to be filed at the rate of about $4.60 per lineal foot. Every property would have to connect with the sewer at an average cost to the property owner of about $85.00 per connection. Each property would have to pay not less than $12.00 per year for sewage disposal. This fee of course would be paid to the City of York.

In addition to the individual property owner's costs, liens against his property, etc., the Borough would have a $200,000.00 debt. If interest could be obtained at 3%, which is lower than has been available in the past, the interest charge would be $6,000.00 per year. A Sinking Fund would also have to be set up requiring not less than $5,000.00 per year payment on the principal. In brief, $11,000.00 in interest and Sinking Fund requirements would have to be taken out of a total Borough taxes receivable. No doubt appraisal value of properties would be raised for increased tax revenue, which would require an increase in property taxes. Financing the installation of a sewerage system and at the same time providing funds for administration needs would be a financial problem that seems to border on the impossible.

- - - - - - - - - - -

OUR SUGGESTION

First let us completely settle our present indebtedness. Then, after 1947 or 1948, let us maintain the 15 mills tax placing surplus income over administration requirements in an accumulating fund for Borough improvements. In this way we may accumulate as much as $50,000.00 in 10 years, which could be further increased by earned interest, if invested in U. S. Government Bonds.

It is also likely that a more opportune time for contracting for public improvements will present itself, requiring less cost for engineering, labor and materials. Furthermore, the Borough's improved financial position would secure a better interest rate. There is also a possibility that State or Federal financial aid could later be secured.

If this long vision planning into the future would be placed in operation and would result in the Borough's desired favorable position, then at the opportune time the proposed Borough improvements requiring the necessary indebtedness could be presented to the citizens of the Borough for their decision at the polls. It is well to remember that in this important matter Council has no authority to act, until after a vote approving the project has been completed by the citizens of North York Borough.

September 14, 1945

North York Boro Council met in regular session with Pres. Inners presiding.

The following members were present: Inners, Eckenrode, Burkins & Kohr.

Minutes of the meeting held 8/10/45 were approved as read.

Reports of standing committees were then heard:

Highway - Eckenrode - Sewer at 7th & Geo. St. cleaned - Weeds cut at various places in Boro - Stones placed on Queen St. opp. High School & in alley on E. 9th Ave. - All money allotted for Building of Sts. will be used to do patch work.

Police - Kohr - 12 fines paid totalling $160.00

Fire & Safety - Kohr - Two pumpers to be ret'd to Govt.

Finance - No Report.

Sanitary - Eckenrode - Gave a brief resume which dealt with the Sewer Problem in North York Boro, which resume is now made part of these minutes.

Light - No report.

Eckenrode made a motion seconded by Burkins that '25 Miles Per Hour' signs be purchased for Duke St. Carried.

Secretary to write a letter to the Hunt Co. and see if they have already made shipment of the signs ordered for Geo. St. & if not to have them hold the order.

It was regularly moved and seconded that the bills be approved and orders granted for their payment.

October 12, 1945

North York Boro Council met in regular session with Pres. Inners presiding.

The following members were present: Shaffer, Inners, Eckenrode, Throne, Burkins & Kohr.

Minutes of the meeting held Sept. 14, 1945 were approved as read.

Reports of standing committees were then heard:

Highway - Shaffer - Stone was placed on 5th Ave. E of Queen St.; W/ Pine St.; N. Duke St. & Sixth Ave. School Zone Signs to be painted on both Geo & Duke Sts. by Keystone Sign Co in near future. Sec. advised to inform H. E. Goodling Elec. Co. that Albright Alley is to have Stone or other form of Resurafce material put on before it is rolled.

Police - Burkins - Fines paid totalling $160.00

Fire & Safety - No report.

Sanitary - No report.

Light - No report. - Chief Burgess advised to have Officer investigate who is breaking lights at 5th Ave. & Pine St. and see if this cannot be stopped.

General Discussion on unsanitary condition of 8th Ave. and elsewhere in Boro. It was finally decided to wait and see what legal decision is handed down in the controversy between Springgarden Twp. and its property holders on a similar situation before we bring action against the property holders in the Boro who have failed to comply to the request of the Health Board to build Cesspools or install Ceptic Tanks.

Eckenrode made a motion seconded by Throne that we purchase a Carbon Dioxide unit for the Fire Truck. Carried.

Eckenrode made a motion seconded by Kohr that the bills be approved and orders granted for their payment. Carried.

Shaffer made a motion seconded by Burkins that council adjourn.

Reports of standing committees were then heard:

Highway - Shaffer reported cinders would be placed & snow removed; Williams promised to send out, none arrived.

Police - No report.

Fire & Safety - Compnay bought another dioxide extinguisher, which now gives thems two.

Finance - Eckenrode reported meeting with sanitary comm. & discussed plans.

Sanitary - No report; except met with finance comm. as before mentioned. Applications recd from State, none from Fed. Govt.

Light - No report.

The posts for the signs have not arrived as yet and when they do they will be erected.

Kohr reported on the Boro Asso. meeting that he Shaffer & Burkins attended.

Acting on a petition from the residents of E & W 8th Aves. it was decided to have the Light Comm. request the Bus Co. to stop at 8th & Geo. Sts.

The fire Co. grants use of Fire Hall to Police & Chief Burgess and for any other use council might desire.

After the resignation of Richard E. Kohler, which he explained, in person, Mr. Inners requested a rising vote of thanks for the splendid job he did while in office.

Council was advised that its Sec., Paul Glatfelter, desires to resign; Mr. Eckenrode said that the council should see Mr. Glatfelter and prevail upon him to stay for the first three or four months in 1946.

Kohr made a motion seconded by Throne that the bills be approved and orders granted for theier payment. Carried.

Burkins made a motion seconded by Shaffer that Council adjourn.
