North York Borough Council met in regular session on Monday, November 3, 1947 in the Council Chamber of the Liberty Fire Hall with Vice-President Kohr presiding. A roll-call showed the following to be present: Councilmen Eckenrode, Cousler, Beshore and Fink, Secretary Suereth, Solicitor Foster, Engineer Monk, Chief Burgess Inners and Chief of Police Reigle.

The minutes of the October 6, 1947 meeting were read and approved.

Standing Committees gave the following reports:

FINANCE - Eckenrode reported the Sanitary Sewage Plans being prepared by Engineer Monk are 90% complete.

SANITARY- Eckenrode made a motion that the York Water Company and the York County Gas Company be sent a letter requesting them to replace certain sections of paving torn up by their employees in making necessary repairs and installations. The motion was seconded by Fink and carried.

LIGHT - No Report

HIGHWAY - No Report

FIRE & SAFETY - No Report

Chief of Police Reigles' report was read by the Secretary and Chief Burgess Inners' report showing a total of $12.75 collected for permits was also read.

Eckenrode reported that the plot known as Potter's Field, lying on West Seventh Avenue was owned by the City of York and it would be necessary to secure their permission before that street, West of Schley Alley could be vacated by the Borough and utilized as a playground by the North York School Board. He stated that a letter was being prepared by the School Board on Borough Councils' stationery to secure the necessary permission from the Council of the City of York, and suggested that the Borough Secretary be authorized to sign the completed letter. Council favored this action and the Secretary was instructed to sign the letter.

Representatives of the John D. Graves Real Estate Co., developers of the former Trailer Camp site were present and their Counsel, Spencer Liverant was given the floor by Vice-Chairman Kohr. He stated that his client was planning to make an over-all plan of the tract for presentation to the Council but such a plan would require a good deal of time to prepare and he was desirous of continuing the developement without unnecessary delay. He requested permits to be issued on the street east of the presently developed section. He stated that it wouldn't be practical to construct sidewalk and curbing at several of the homesites as they would tower as much as three feet above the present streets. Borough Solicitor Foster quoting the Borough Code stated that the Council would not be financially responsible for the laying of any new streets on the tract. The Graves group was asked to retire so Council could further discuss the problem. They complied with the request and after lengthy discussion, Eckenrode stated, " I make a motion that Borough Solicitor Foster instruct the Solicitor for the John D. Graves Company that the provisions of the Borough Code be complied with as per section 1666 and that grading shall be according to plans approved by North York Borough Engineer and North York Council and must be completed before the streets are adopted. We will compromise by not requiring at this time, curbing, sidewalks and paving - this to be done by property owners at some future time.

Solicitor Foster suggested that Mr. Eckenrode accompany Prof. Snyder to the next meeting of the County Commissioners to ascertain if they had any objections to the proposed action, because it would affect entrance to their property on West Seventh Avenue, commonly known as Potter's Field. This suggestion was favorably received.

Eckenrode made a motion instructing the Highway Committee to locate unrepaired holes in the Borough streets which were excavated by any of the Public Utility Companies, furnish a list of such locations to the Secretary and having him communicate with the Utility Companies reminding them of their responsibility for putting them back to their original condition.
