Dec. 4th. 1950.

The regular session of the North York Borough Council was called to order at 8:00 P.M., Monday Evening, Dec. 4th., by the president David E. Fink. A roll call found the following councilmen to be present: Lauer, Slaugh, Poff, Gladfelter, Brothers, Chief of Police Reigle, Chief Burgess Inners, Treasurer Everhart and Secretary Shettel. The minutes of the previous meeting were read and approved.

The following are the reports of the standing committees:

Finance Committee: No report.

Sanitary Committee: Brothers, chairman of this committee reported that the leaves have been cleaned away from the storm sewers.

Highway Committee: No report.

Light Committee: Gladfelter, chairman of this committee reported that the borough lights were out of commission due to the past storm, but have been placed in operation condition again.

Police Committee: The Chief of Police report was read by the Secretary. This report showed that $153.00 was collected in fines during the month.

Fire & Safety Committee: No report.

The Chief Burgess report was read by the secretary. This report showed that $4.50 was collected for permits issued during the month.

The flooded condition of the mones in the 500 Block on North George Street, due to the overflowing of Willis Run was again brought to the attention of borough council. It was decided to have our Solicitor Mr. Foster investigate and find out just what may be able to be done to remedy this condition.

Mr. George Beck, a representative of the Goodling Electric Co., was present and reported on the condition of Albright Ave., at 2nd., Ave. He stated that regardless what is done in the way of repairing the avenue does no good and that the only solution is to repair it with a permanent surface. He presented an estimate for repairs prepared by Stewart and March, Contractors, and stated that their company would share half of the expense of this. After a discussion council instructed the secretary to inform the Goodling Electric Co., by letter that is as much as the plans for the sanitary sewer system have progressed as far as they have it would be unadvisable to repair this avenue at this time because the sewer will in all probability be layed in thisaavenue.

Mr. Robert H. Shriver and Eldon W. Rabert, both residents of East 11th., Ave., were present at the meeting and presented to council the possibilityof the annexation of that land and properties running between 10th. and 11th. Ave., east to George Kelbaugh's Garage. The residents stated that their chief concern were the school facilities for their children. They stated that they have no school bus service and that some families have children going to two and three different schools. Council inform these residents that a petition signed by the majority of the freeholders in the area must be presented to council before any action can be taken on annexation. They also stated that sewers, street lights and roads are also factors concerned. Solicitor Foster suggested that they circulate a petition on the matter of annexation.

The finance committee set Friday Dec. 22nd. as the date to prepare the proposed budget for the year 1951.

It was announced that I. R. Snyder had resigned as a member of the Sewer Authority because of his moving out of the borough. Poff moved that the resignation be accepted. Brothers seconded the motion. President David E. Fink then appointed

Royce Martin 59 E. 9th. Ave., as a member of the authority to succeed Mr. Snyder.

At this time bids for the removal of organic and inorganic garbage were received and opened. One bid was received from Raymond Kann at a price of $3400.00. Another bid was received from Ted Witmer at a price of $3500.00. This contract to run from Dec. 31, 1950 to Dec. 31, 1951. After discussion on the acceptance of a bid council decided to defer action. This was done on a motion made by Lauer and seconded by Brothers. President Fink stated that a special meeting will be held Monday Dec. 11, at which time the garbage contract will be awarded.

Lauer moved that all the bills be paid. Poff seconded the motion. Motion carried.

Slaugh moved that the meeting be adjourned. Gladfelter seconded the motion. Motion carried.

Councilman Spotz stated that he felt the borough was in need of a stop sign at the corner of Queen St. and 7th., avenue because of the fast driving of some of the students of the High School. A discussion was held concerning this and Councilman Slaugh suggested that the borough follow the same procedure as last year and hire a special officer to be on duty at this point whenever necessary.

A letter received from the Goodling Electric Co., was read by this secretary. In this letter Mr. Charles G. Eyster of the Goodling Co., stated that he appreciated what the borough has tried to do at Second Ave. and Albright Ave, in regards to a large hole which is continually being washed out. He stated that the hole was repaired, but that within a short time it was washed out again. He stated that this probably came about from the soapy water which is run down the alley from the various residents. Mr. Lauer stated that Mr. Eyster had ask him if he thought the council would object if his company would clean out the loose stone and refinish the spot. After a discussion council stated that they had no objection to the Goodling Company doing this. Mr. Lauer also stated that he told Mr. Eyster that some of the damage was done by their large trucks going over this spot and that they were at fault to a certain extent. Lauer moved and Slaugh seconded that the secretary write the Goodling Co., a letter stating that council had no objection to their repairing of this alley at the point in question. Motion carried.

Solicitor Foster presented to council an ordinance which he had prepared for their approval. This ordinance prohibited the discharge of any type of fire arms within the borough limits, and also the selling of air rifles within the borough limits. Fahs moved and Spotz seconded that the ordinance be adopted. Motion carried. Completed ordinance will be presented to council at its next regular meeting.
Solicitor Foster presented to council an ordinance which he had prepared for their approval. This ordinance concerned the unlawfulness for a person or persons to turn in a false fire alarm. It also stated that persons caught would be prosecuted and if found guilty be subject to pay a fine not to exceed $100.00 or sentenced to 60 days in jail.

Slaugh moved and Fahs seconded that the ordinance be adopted. Motion carried.

Solicitor Foster then presented the third ordinance to borough council for their approval. This ordinance stated that it shall be unlawful for the owner of any dog, whether licensed or not, to permit such dog to run at large upon the streets of the Borough of North York. Also that it shall be unlawful for any person who has been given care and custody of any dog by its owner, whether licensed or not to permit said dog to run at large upon the streets of the borough. Also that any one found violating this ordinance may be subject to a fine of not less than $10.00 and not more than $25.00 and costs of prosecution, or ten days in jail. Fahs moved and Lauer seconded that the ordinance be adopted. Motion carried.

Councilman Fahs stated that he would in all probability hand in his resignation as a member of council at the next meeting, is as much as he has been called into active duty in the United States Navy. He ask that council be prepared to appoint a man to take his place.

The regular session of the North York Borough Council was called to order at 8:00 P.M. Monday evening, July 3rd., by the president David E. Fink. A roll call found the following to be present: Councilmen Gladfelter, Poff, Slaugh, Spotz, Fahs, Burgess Inners, Chief of Police Reigle, Treasurer Everhart and Secretary Shettel. The minutes of the previous meeting were read and approved.

The following are the reports of the standing committees:

Finance Committee: No report.

Sanitary Committee: No report.

Highway Committee: Poff, chairman of this committee reported that the alley running from Sigsbee Ave. to West Eighth Ave., which was reported to be in a bad condition was repaired. He also reported that the no parking signs to be placed on Laurel Street have been ordered and will be installed as soon as they are received. He reported that work on the general repairing of the borough streets will be started on or about the 10th. of July.

Light Committee: No report.

Police Committee: The Chief of Police report was read by Councilman Spotz, chairman of this committee. This report showed that $80.00 was collected in fines during the month.

Fire & Safety Committee: No report.

The Chief Burgess report was read by the secretary. This report showed that $40.25 was collected in permits, and $5.00 was collected in fines, during the month.

Chief Burgess Inners reported that a large stone was placed in the middle of a road which was opened by a resident of North Duke St. The road is an extension of East Tenth Avenue. Burgess Inners reported that the resident told him that he had opened the road for his own use and that people from the Wilbur Tract were using it and that was the reason he placed the stone there. Burgess Inners was interested in knowing if the borough could be held if any of these residents either ruined their car or were injured. Solicitor Foster stated that in so far as the street has not been adopted by the borough they could do nothing about it and were not responsible. He stated that as far as he could see it was entirely a personal fued.

Chief Burgess Inners asked to have explained to him the ordinance regarding the permits to be taken out by people peddling in the borough. He stated that the ordinance called for one rate of permit and that at another point called for a different rate. Solicitor Foster stated he would check the ordinance to see if there ever had been an amentment added to it.

A letter was read by the secretary from William Ketterman, proprietor of the York Coffee Co., North Duke St., reporting the terrible condition of the weeks on the Arthur Mayer property surrounding his property. He stated that they were a fire hazard, give vandals a hiding place, and also unsafe for the children living in that vicinity. Council will investigate this condition and will also try to hire somebody to cut the weeks on borough property. The letter was ordered filed.

At this time Solicitor Foster took over the meeting for the purpose of explaining the establishing of a municipal authority to members of council and also four proposed members of the authority. He stated that the municipal authority will be created for the purpose of erecting a sanitary sewer. He stated that by an act of legislature it gave this authority unlimited borrowing power. This authority would be a separate corporation and receive a charter from the state, it would have to be created by council and by the adopting of an ordinance. There will be five men named to the authority and their terms of office to run from 1 to 5 years. Each year one mans term will expire and council will appoint another member, and that a man can be reappointed to succeed himself.

The term of life of the authority is 50 years, and the maximum life of bonds to be issued will be 40 years. The bonds to be retired in series. Immediately after the authority is named they will immediately take over the entire sewage question and it will be out of the hands of the council. They will take over the question of financing and other details. A bond issue will have to be established and bonds will become property of the authority and not of council. THey will contact construction companies, ~~xxxx~~ contact bonding housed regarding bonds. Foster stated the possibility of entering the sewage system of the City of York, and that it is a possibility that the Sanitary Water Board will tell York city to allow the borough to enter into their system. He stated that the issuing of bonds will eliminate front footage assessment , and that revenue received from rentals can be used for maintenance and depreciation. He stated that you can compel people to enter into the sewer to the point of entering them regardless if they want to or not. After sewer is completed the borough will lease it back from the authority and then take over the control of the sewers. Borough will collect sewer rental from the residents of the borough and will make payments to the authority. The following men were then named to the authority,

George F. Snyder - 5 years.
Lloyd Z. Kauffman - 4 years.
J. Warren Shindler - 3 years.
Perry A. Peiffer - 2 years.
I. R. Snyder - 1 year.

The ordinance establishing this municipal authority was read by the solicitor and it was adopted on a motion made by Slaugh and seconded by Fahs. Motion carried.

Slaugh moved that all the bills be paid. Spotz seconded the motion. Motion carried.

Slaugh moved that the meeting be adjourned. Fahs seconded the motion. Motion carried.

NORTH YORK BOROUGH COUNCIL

YORK, PA.

June 5th. 1950.

The regular session of the North York Borough Council was called to order at 8:00 P.M., Monday evening, June 5th., 1950, by the president David E. Fink. A roll call found the following to be present: Councilmen Lauer, Gladfelter, Poff, Slaugh, Spotz, Fahs, Burgess Inners, Chief of Police Reigle, Treasurer Everhart and Secretary Shettel. The minutes of the previous meeting were read and approved.

The following are the reports of the standing committees:

Finance Committee: No report.

Sanitary Committee: No report.

Highway Committee: Poff, chairman of this committee reported that the streets have been cleaned of dirt and debris caused by recent rains.

Light Committee: No report.

Police Committee: The report of the Chief of Police was read by Councilman Spotz, chairman of this committee. This report showed that $260.00 was collected in fines during the month.

Chief Burgess Inners report was read by the secretary. This report showed that $26.75 was collected in fines and permits during the month.

Councilman Spotz reported on the condition of Willis Run at the point where it crosses North George Street. He stated that complaints had been received from residents in that area. He stated that one resident said their oil burner had to be taken out every time there was a heavy rain, that the water had been as much as 10" deep. Council discussed the situation and stated that the cause of this was the fact that Willis run was clogged up where it runs through West Manchester township. Further investigations will be made.

At this time bids for an automobile for the Police Department which were advertised for during May were opened:

One bid was received from the Ammon R. Smith Auto Co., on a Chevrolet at prices ranging from $1,225.05 to $1,358.55.

One bid was received from the Carl Beasley Co., on a Ford at a price of $1,833.57.

After a discussion on the purchase of a car a motion was made by Gladfelter, and seconded by Poff that action on the purchase of a car be deferred until a later date. Motion Carried.

Councilman Lauer moved that borough council purchase a typewriter to be used by the secretary. Spotz seconded the motion. Motion carried. Slaugh moved that the secretary be authorized to purchase same. Poff seconded the motion. Motion carried.

Councilman Slaugh made a motion that the treasurer be authorized to pay whatever amount he received from the Liberty Fire Co., on the principal of the $11,300 note held by the Stewartstown National bank, on the newly purchased fire apparatus. Council to pay the interest. Lauer seconded the motion. Motion carried.

William Lease a resident of West Eighth Ave., was present at the meeting and reported the condition of the alley running between Sigsbee Ave., and Eight Ave. He reported that water being poured into the alley in not carried entirely away and stands in the gutter at the side of his home causing a stench which is very unhealthy. The highway committee reported that there are several holes in the alley and they will be repaired. They also stated that this condition could only be repaired temporarily because of the lye and soap in the water. Slaugh moved and Gladfelter seconded that the condition be remedied.

Council authorized the highway committee to investigate the water condition at the King Oil Service, in that the water used to wash cars is being run in the public street.

Borough Tax Collector Lloyd Z. Kauffman was present at the meeting and reported the 1949 taxes which were not collected and said he will place them in the hands of the solicitor who will enter leins against them. Kauffman also reported that for the past nine years he has paid the taxes on a lot at 1217 North Duke Street belonging to the estate of Caroline Nicholas, and he suggested that the council try to dispose of this for the taxes. On a motion made by Slaugh and seconded by Gladfelter the solicitor was authorized to take whatever legal steps are necessary in the disposing of this lot.

Solicitor John Foster read two ordinances which he had prepared at the instruction of borough council. The first ordinance prohibits the parking of any type of unlicensed vehicle on any public street, alley or thorofare in the Borough of North York; requiring notice to be given to the violator thereof, and providing for the removal and storage of said vehicle, under the direction of the Chief of Police, providing fines and penalties for the violation thereof. Lauer moved that the ordinance be adopted. Slaugh seconded the motion. Motion carried.

The second ordinance prohibiting the parking of any type of vehicle in or upon the North side of Laurel Street, between Court Alley and Duke Street, in the Borough of North York, and providing a fine and penalty for violation. Lauer moved that the ordinance be adopted. Poff seconded the motion. Motion carried.

A letter was read in regard to a sanitary sewer system in that June 1, 1952 was been set as the date when such a system has to be completed, and also refered to plans and specifications being approved by the state. Clarence Hoge a representative of the borough engineer was present and explained the contents of the letter to council. He was ask to get a clarification of the conflicting orders from the state in that council has had plans approved by the state for some time. The letter also requested that regular reports be made as to progress of the establishing of such a system. Foster also requested that the engineer find out if the state would approve a North York sewage system which would be hooked into the city's now inadequate disposal plant.

Lauer moved that all the bills be paid. Slaugh seconded the motion. Motion carried.

Slaugh moved that the meeting be adjourned. Poff seconded the motion. Motion carried.

Respectfully submitted,

Samuel N Shettel

Richard Slaugh stated that the fire company would like to know to what extent of responsibility they are held when they take their fire new fire apparatus out of the engine house for a trial run. He stated that the company wishes to have some sort of agreement drawn up due to the fact that on several occassions the apparatus was taken out of the engine house without the knowledge of the proper persons concerned and taken as far as Mt Wolf.
