He also reported that a plate covering a valve box located at the corner of Queen St. and E. 6th. Ave., was broken causing a dangerous condition. He stated that he had reported this to the Water Co., but had not heard from them. The secretary was instructed to write the York Water Co., requesting that they fix this cover.

He stated that he had been approached by numerous residents regarding whether it would be permissable for them to have the sewer contractor make this entry. Engineer Weigle stated that he say no reason why the residents could not enter into a contractwith the contractor to place these laterals in readiness to enter into the sanitary sewer.

It was reported that the Liberty Fire Co., would like to paint the second floor and the hall of the fire company building, and ask council if they would stand $100.00 of this expense. The matter was turned over to the finance committee to be included in the 1953 budget if they saw fit.

Roll was called finding the following to be present: Councilmen Fink, Goodling, Bowen, Cousler, Brothers, Strine, Chief Burgess Inners, Engineer Weigle, Solicitor Foster, Treasurer Everhart and Secretary Shettel. The minutes of the previous meeting were read and approved.

Report of the Standing Committees:

Finance Committee: No report.

Highway Committee: No report.

Sanitary Committee: Brothers chairman of this committee reported that three storm sewers have been cleaned out.

Light Committee: No report.

Police Committee: The chief of police report was read by the secretary. Goodling moved and Fink seconded that the report be accepted and filed.

Fire & Safety Committee: It was reported that the Liberty Fire Co., would like to have approximately 200' of hose. Council stated that the fire company state exact amount of hose needed so that it could be included in the budget.

The Chief Burgess report was read by the secretary. This report showed that $14.00 was collected for permits issued and $86.00 collected in fines during the month. Brothers moved and Cousler seconded that the report be accepted and filed.

At this time Solicitor Foster read an ordinance which he had prepared. This ordinance will prohibit the parking of cars on the north side of East Sixth Avenue from George St. to Duke St., with any violation carrying a fine or jail sentence.

An ordinance was also read by Solicitor Foster creating a one way east on Laurel St. from North George St., to N. Court Ave. This ordinance carrying a fine or jail sentence for any violation.

Brothers moved and Bowen seconded that both of these ordinances be adopted. Motion carried.

Solicitor Foster stated that he had received word from Mr. Bennett of the State Highway Department regarding the no pssing zone in the borough. He stated that the department reported that the no passing zone was illegal and that the borough would have to remove the signs which have been erected. They stated that they could not permit a no passing zone the entire length of North George St., in that it was very impractical, causing to many techinical violations and create a great deal of trouble even for the people of the borough. They stated that a motorist who would pass a delivery truck making a delivery would immediately violate this no passing law. ~~The highway department stated to~~ Mr. Bennett stated that a no passing zone could be created on North George St. from 2nd. Ave. to 5th. Ave., but that a formal permit would have to be applied for and then the state department would make a survey. He stated that he felt sure it would only be a formality for it to be approved. Council felt that they have not received a complete reply as to why this zone has been refused and decided to keep the signs up and try to have a representative of the highway department present at the December meeting.

Bids were opened for collection of organic and inorganic garbage in the borough for the year 1952. Only one bid was received and that was from Paul P. Lauer who submitted his bid at a price of $5424.00. Brothers moved and Find seconded that the bid of Paul P. Lauer be accepted at a price of $5424.00 for the year, from Jan.1, 1952 to Dec. 31, 1953.

President Slaugh read an ordinance covering the discharging of fire arms within the borough limits. This was read because of the discussion held at our November meeting regarding the setting off of dynamite in the borough. He stated that he felt we should have an ordinance covering this because there may arise an emergency where it may be needed, ~~and think it~~ It was decided to draw up a permit covering the discharging of dynamite or any explosives withinthe borough limits. It was also decided to insert in this permit that those persons lifting the permit are liable for any damages incurred.

A discussion was also held regarding the ordinance covering the burning of leaves and rubbish within the borough limits. Both Burgess Inners and Officer Smith reported that quite a good bit of this has been done this fall.

President Slaugh reported that the Liberty Fire Co., hah re-written their by-laws to change the age limit of members to 16 years of age. He reported that ~~the~~ he had inquired regarding the compensation insurance carried on the members of the fire company and was informed that it ~~included~~ included any member of the fire company of this age. ~~This insurance excluded~~ This insurance included any member of this age or as long as they had a working certificate. There is no law governing the age limit of any member of a fire company.

A special meeting of the North York Borough Council was held Wednesday evening Oct. 15th. at 7:30 P.M. The meeting was called to order by the president, Richard Slaugh. The roll was called finding the following to be present: Councilmen Bowen, Brothers, Cousler, Finks, Burgess Inners, and Mr. Gailey from Fosters office and secretary Shettel.

President Slaugh stated that the purpose of the meeting was to take action on the matter of Mr. Vance Eppley, owner of Eppleys Drug Store at 7th. ave. and N. George Street, who desires to remodel his property and extend the front of it to the pavement line. Slaugh stated that Mr. Eppley had received permission from the owner of the property, Mr. Gladfelter to make this addition to this property. Mr. Jack Gailey, representing our solicitor Mr. Foster stated that he had tried to find the deed to this property at the court house but was unable to find any. He stated that it is possible that there may be a restriction contained in the original deed which might prevent him from doing this. President Slaugh stated that his opinion was that council object to his doing this remodeling to the extent desired. Following a discussion council decided that about the only thing they could do was to go on record as objecting to this building inas much as council could take no legal action preventing this remodeling. Fink moved and Cousler seconded that council go on record as opposing the remodeling of any property beyond the porch line of the properties. This to adher on North George street on both east and west sides. Motion carried.

Following this discussion permission was granted to the North York Lions club to furnish and place trash disposal cans throughout the borough at convenient places.

The meeting was adjourned by President Slaugh.

Respectfully submitted,

Samuel H. Shettel, Secy.

June 16, 1952.

A special meeting of North York Borough Council was called to order by the president, Richard Slaugh, Monday evening June 16th. 1952. Roll was called by the secretary. The following members were present Councilmen Fink, Brothers, Goodling, Cousler, Bowen, Strine, Solicitor Foster and Secretary Shettel.

The meeting was called for the purpose of adopting two ordinances. One pertaining to the extending of a public street known as N. Pine St., from 7th. avenue to the borough line., and the other pertaining to the adoption and extention of a public streek known as Ninth Ave., from Queen St. to Pine St.

Before the adoption of these ordinances Attorney Leader, solicitor for the Central Joint District School Board, who was present at the meeting, ask borough council to hold up on the passing and adopting of the ordinance pertaining to the extending of North Pine Street, as the School Board were contemplating purchasing a plot of ground directly in line with this street for the purpose of building a new Senior High School. Several members of the North York Sewer Authority were present and stated that they were not in favor of holding up the passing of this ordinance because of the fact that all plans for the sanitary sewers have been made, the contracts awarded and they felt this would cause an added expense in case plans had to be changed. After a discussion the Authority agreed to go along if any expenses that would be involved would be paid for by the School Board. Attorney Leader stated that he was in no position to assure them that this would be done but he felt in his own mind that the school board would do this. It was decided to hold up on the passing of this ordinance for two weeks and that in the meantime the School Board would have another meeting and a definite answer could be given regarding the matter.

The ordinance regarding the extending and adopting of 9th. Avenue from Queen to Pine St., was read by Solicitor Foster. Fink moved and Brothers seconded that the ordinance be adopted. Motion carried.

Fink Moved and Brothers seconded that the meeting be adjourned. Motion carried.

Fink moved and Goodling seconded that both these ordinances be adopted. Motion carried.

The secretary read a letter from former borough engineer Thomas A Monk Jr., in which he presented a bill to the amount of $1580.00 for services rendered in connection with the North York Sewer Project. Solicitor Foster stated that this invoice has been going from one hand to another for quite some time. He also stated that he and the members of the sewer authority believed that Mr. Monk was entitled to some pay for services rendered but that this price was entirely out of reason. He suggested that a committee from borough council meet with the sewer authority and possibly Mr. Monk to go over this invoice. It was therefore decided that the Finance Committee meet with the Sewer Authority regarding this issue.

The president asked for the reading of bids received for the purchase of an automobile for the Chief of Police.

One bid was received from the Ammon R. Smith Auto Co. This bid was for a fourdoor Black Chevrolet as per specifications at a price of $1623.71.

After a lengthy discussion regarding this bid, Brothers moved that the bid be rejected and the matter tabled. Cousler seconded the motion. Motion carried.

Cousler moved that an order be granted for the payment of the bills. Goodling seconded the motion. Motion carried.

Fink moved that the meeting be adjourned. Strine seconded the motion. Motion carried.

The regular monthly meeting of the North York Borough Council was called to order Monday evening April 7th, 1952 at 8:00 P.M. by the president Richard Slaugh. Roll call found the following to be present: Councilmen Brothers, Cousler, Fink, Strine, Goodling, Bowen, Engineer Weigle, Solicitor Foster, Burgess Inners, Police Officer Smith, Treasurer Everhart, and Secretary Shettel. The minutes of the previous meeting were read and approved.

Following are the reports of the standing committees:

Finance Committee: Cousler, chairman of this committee reported that he had been approached by Joe Doll, Borough Tax Collector regarding borough council paying a share of his surety bond. The finance committee requested that council pay this. The treasurer was instructed to pay this as soon as it comes due and a bill is received.

Highway Committee: Fink, chairman of this committee reported that necessary street repairing is being done. He reported that black top will be placed on these places as soon as the weather permits.

Sanitary Committee: No report.

Fire & Safety Committee: Engineer Weigle presented to borough council a revised map of the borough which he had been requested to prepare. This was done at the request of Liberty Fire Co. A bill was presented to council for additional insurance on the fire apparatus. This insurance will include fire & theft and also $100. deductible. The bill was approved and ordered paid.

Police Committee: The chief of police report was read by the secretary. Following this Goodling, chairman of this committee reported to council that the police committee had met with Chief Burgess Inners and Police Officer Smith regarding the purchase of an automobile for use by the Police Officer. He stated that the committee was unable to come to any agreement and therefore turned the matter over to borough council for disposition. There were several residents of the borough present and were called on to express their opinions in the matter. They were all of the same opinion in that they felt that the borough officer should have an automobile to better protect every resident of the borough and to perform his duties more efficiently. After a lengthy discussion Fink moved and Brothers seconded that the secretary be instructed to advertise for bids for the purchase of an automobile for the police officer. Motion carried.

Chief Burgess Inners report was read by the secretary. This report showed that $15.00 was collected in permits and $58.00 in fines during the month.

Solicitor Foster stated that he had contacted Mr. King of the King Oil Service regarding the condition on Court avenue resulting from the washing of cars at his service station. King stated that he would go along with the borough in helping to remedy this situation but that going to the expense of entering the storm sewer when the sanitary sewer system is so near being started seemed to him to be a double expense, and that he thinks council should not expect him to do this.

The secretary was instructed by council to write the Pennsylvania Department of Highways inquiring to what procedure must be taken to place a white line in the center of George Street from the north to the south end creating a no passing zone. Council believes that such a line would curb speeding in the borough and prevent possible accidents.

Burgess Inners asked council for permission to use the fire siren during test air raids as an alert signal. A system of signals to be worked out with the Liberty Fire Company to prevent confusion is case of a fire. Fink moved to grant this permission. Bowen seconded the motion.

Solicitor Foster stated that work on the Sanitary Sewer is progressing very nicely and that construction of this sewould possibly start before July 1st.

It was reported that the street at the corner of E. 9th. Ave., and No. Duke St. has not as yet been repaired by the York Water Co. The secretary was instructed to write them again requesting that they repair this.

The highway committee was instructed to replace a speed limit sign which had fallen down, at the south east corner of George St. and Eleventh Ave.
