Hykes, Young, Engineer Davidson, Solicitor Rochow representatives of Manchester Township were present at the meeting to discuss the connection of the township to the North York Sanitary Sewer. They discussed the possibility of connecting east of the by-pass by paying their share on a lump sum basis instead of monthly payments. Discussion also included the line from George St. to Duke St., if satisfactory to both parties. The council decided to turn the issue over to the North York Authority for further discussion and action.

(1 Collection per week)	Jacob Eisenhart	$5000.00
	John Neiderer	$4006.60
	Paul Lauer	$4470.00

Due to a misunderstanding in the advertisement placed in the paper it was decided on a motion by Chantiles and a second by Kauffman to reject all bids and readvertise. Motion carried. The new bid to specify two collections per week for the entire borough and also collections to be made in a closed truck.

Highway Committee: Committee stated that Emrich Construction Co., will repair Court Avenue where concrete gutter was replaced.

Fire & Safety Committee: The Burgess was instructed to check into the garage building at Eagle St. and Schley Alley. It was reported that this building is in a severe state deteriation and has become a nuisance.

Light Committee: This committee was instructed to contact Metropolitan Edison Co., relative to street lights on Chapel Drive in Evunbreth Heights.

The Chief Burgess report showed that $52.00 has been collected in permits during the month.

Council expressed their deep regret in the passing of their fellow councilman Herbert C. Kern. It was decided that the secretary draw up a resolution of respect and send one to Mrs. Kern and also publish it in the paper and also place it in the minutes of council. This was done on a motion by Baylor and seconded by Everhart.

Finance Committee: Everhart, chairman of this committee stated that his committee had a preliminary meeting in regards to the setting up of the budget for the year 1959. The tax collectors report was read by Everhart and showed that $402.68 was collected in taxes during the previous month.

John Hershock, chairman of the North York Planning and Zoning Commission, was present at the meeting and presented the following recommendations. That council approve the retaining of the Buchart Engineering Co., to aid the commission in any future planning and for engineering purposes. Also that borough council set or provide for the amount of $500.00 to be used by the commission in their future activity. He further stated that by the next council meeting they expected to have a written agreement with the Buchart Engineering Co. A motion was made by Chantiles that council approve the appointment of Buchart Engineering Co., and also provide the amount of $500.00 for the commission. The motion was seconded by Baylor. Motion carried.

Police Committee: It was reported that the police car was in need of repairs. The committee to investigate the extent of these repairs. Burgess Desenberg also stated that in as much as the borough has passed an ordinance requesting that peddlers and hawkers obtain a yearly license, that he was going to enforce this ordinance. He stated that in past years the ordinance was only enforced on a certain percentage of persons peddling in the borough.

Sanitation Committee: This committee raised the question as to whether the pipe which was being laid at the North Gate Shopping Center was a sewer pipe and if there was a possibility of it being entered into the North York Sanitary Sewer. Engineer Weigle stated that this pipe would be a direct line into the York Sanitary Sewer System.

Highway Committee: A bill for general repairing of streets submitted by the Emrich Construction Co., was presented to council and approved for payment. $617.90 of this amount was paid directly from the general fund and $2649.60 from the Motor License Fund. Finance Committee: Roderick, a member of the finance committee reported that he had investigated the possibility of supplying gas for the heating of the borough building at the rear of 119 W. 6th. He stated however that we will have to repave the street and also we will have to meet the requirements of the gas company in regards to placing a proper chimney in the building. The price for the gas heater to be put in the building would be $170.00 which includes the installation. George St. He reported further that the fire company had told him that at one time there was a fire plug at this location but because it was never used a former council had it removed.

Solicitor Beers was instructed to draw up an ordinance covering the $1000.00 to be given to the Liberty Fire Co. Council had set this amount in their budget for use of the fire company.

Sanitation Committee: Roderick, chairman of this committee stated that he had contacted Paul Lauer regarding the cleaning of the storm sewers, and that Lauer is now in the process of doing this.

BOROUGH OF NORTH YORK

YORK COUNTY, PENNSYLVANIA

OFFICE OF THE CHIEF BURGESS

WALTER A. ROSS
CHIEF BURGESS

January 6, 1958.

TO THE MEMBERS OF NORTH YORK BOROUGH COUNCIL:

I submit, as my final tenture of office, the following report and message for your consideration and approval.

During the past 4yrs., serving as your Burgess, many problems and situations occured that demanded attention and solution. Some of these problems were met with individual effort, while others were dealt with on a collective basis through agreements, resolutions, ordnances and contracts. These decisions, I believe to be good ones in that the citizens of the Borough have and shall continue to profit through the use and maintenance of the rules and regulations now in effect.

Examples,of the refered to decisions,include the following:

1. Participation in the Greater York Planning Commission.
2. Participation in the Greater York Garbage & Refuge plan.
3. Annexiation of additional territory to the Borough.
4. Agreements for mutual aid in fire and police work.
5. Purchase of Police Vehicle and Radio
6. Ordnances covering: a. one way streets and stop signs b. concealed weapons,such as switch blade knives c. building permit code d. parking restrictions e. burning of trash and leaves in closed containers f. street openings
7. Contracts covering new streets and alleys and the maintenance of the same.
8. Training a Auxiliary Police force for use in emergencies.
9. Participation in Civilian Defense programs.
10. Jr. Police trainging program - one week summer program teaching basic rules & regulations of safety.
11. Proclamation of Borough Clean-up week.
12. Participation in the North York Community Association.

Perhaps there are others that I may have missed, but the above serve the purpose of showing progress through collective action during the past 4 yrs. This I reiterate because I believe that the community profited in terms of community betterment and shall contunie to profit if we base and project our thinking to the many problems which lie ahead as a result of changing circumstances and conditions.

I hold as a firm conviction, which is to me an article of faith, that no conscious physical effort toward community betterment is ever lost; but held in the lap of time.

At this time I would like to give many thanks and pay tribute to all the people who unselfishly gave of their time and talent to make the above program possible. May their continued effort and cooperation be recognized and supported by our citizens.

BOROUGH OF NORTH YORK

YORK COUNTY, PENNSYLVANIA

OFFICE OF THE CHIEF BURGESS

WALTER A. ROSS
CHIEF BURGESS

January 6, 1958.

SHEET #2

Over 550 permits were issued by the Chief Burgess during his tenture of Office, which serves as a gauge of individual effort in making repairs and improvements to Borough properties. The monetary value in terms of Borough Income, break down as follows:

	1954	1955	1956	1957
Permits	$332.00	$395.00	$354.00	$480.01
Fines	$1072.00	$1835.00	$2550.00	$1557.00
Linses (Pin Ball Jute Box)		$350.00	$380.00	$320.00

In addition to income received through permits, the above figures represent the total income received through fines and licenses.

These figures bear out the fact, that the money spent in enacting a new Building Permit Code, buying a new police vehicle and paying a part-time Special Officer resulted in no additional expense to the tax payer but increased the protection and services rendered to him.

In July 1954, I recommended to Borough Council the following proposals for consideration:

1. The need for an up-to-date Ordnance Book, dropping conflicking Ordnances with the Borough Code and amending others.
2. The appointing of a Borough Planning Commission to meet our present and future needs.
3. The adoption of a Uniform Building Code which would model after the city and be consistant with those in the Greater York area.
4. Granting Allowance for increase police equiptment to cope with our special problems.

These recommendations were enacted with the exception of the Uniform Building Code. I trust that this may be considered in the future along with additional legislation designed for our safety and welfare.

Time has proven the logic in requests made in July 1954 and I am confinsed that the following recommendations I leave with you for study and consideration will prove worthwile to the future of our Borough.

1. I suggest that our municipal problems, such as Planning & Zoning, Traffic, Building Codes, Garbage Collection and Civilian Defense be worked out from a Greater York Area plan rather than a Borough plan alone. This calls for team work and joining together for mutual benefits. The handicaps and cost of self-sufficiency and independence impedes progress and jeapordizes our future and community.

BOROUGH OF NORTH YORK

YORK COUNTY, PENNSYLVANIA

OFFICE OF THE CHIEF BURGESS

WALTER A. ROSS
CHIEF BURGESS

January 6, 1958.

2. The need for a secondary route through North York to relieve the additional traffic using the Expressway. This is foreseeable in mounting evidence of a possible Lancaster to Thomasville by-pass which will increase our allready heavy traffic load. I suggest consideration be given to the opening of Queen St. along with a Bridge to tie in with the city route or the alternate offered recently by following the creek to the Expressway turn table. This I believe is possible with working with the proper officials.
3. Consideration to a regular street cleaning program, including the renting of equiptment to take care of leaves,snow,&dirt.
4. Excepting adjoining districts which desire to annex with the Borough to enjoy the facilities which we have and allowing them time to comply with are present Ordnances. If this is done on a resonable time basis I believe that our Borough can expand.
5. Give thought to a proper borough meeting place that will house all the Municipal officies, including the Police and from which Borough Business can be transacted.
6. Continue the support given to the Auxiliary Police, Fire Police, Civilian Defense volunteers, and Fire Co. who give generously of thier time and talents without compensation.
7. Devote time and study to political sub-division administration to evert errors or questionable transactions, with a corresponding effective way to channel each separate Borough responsibility.

The above specific recommendations I submit for your consideration because I believe through individual and collective study they deserve merit in the future roll of the Borough. The above statements are and represent my own opinions and if there be critism against this optomist I shall take them as a Saturday afternoons quarter-back who has called his best game and owes no apologizies.

I thank you for your time and consideration and for the priviledge of serving as your Burgess.

Yours truly,

Walter A. Ross
