The regular monthly meeting of the North York Borough Council was held Monday evening, Sept. 9th. 1963, at 8:00 o'clock in the Liberty Fire Hall. The meeting was called to order by the president, William H. Everhart. Roll call found the following to be present: Councilmen Whorl, Chantiles, Boyd, Brickner, Gladfelter; Mayor Gladfelter; Engineer Weigle; Solicitor Beers; Treasurer Everhart and Secretary Shettel. The minutes of the previous meeting were approved on a motion by Whorl. Boyd seconded the motion. Motion carried.

Finance Committee: Whorl, chairman of this committee presented the tax collectors report which showed that $38.14 had been collected for 1962 taxes; and $1533.30 for 1963 taxes.

Richard Ehrhart who had been a member of the delegation of residents of the borough who attended last months meeting protesting the very disturbing condition on N. George St. especially in the vicinity of 7th. Ave. and N. George St., was again present at the meeting. He stated that since the last meeting a very quiet condition existed in the above mentioned area of N. George St. He stated that he personally wanted to thank all those persons responsible for this much improved condition and also that he hoped that it would continue to remain in the same quiet condition. He further stated that the delegation would still like to see the establishment of a curfew as outlined in their recommendations. He also stated that he hoped the police committee and the Mayors office would work together in an amiable manner and for the benefit and safety of the entire borough.

Highway Committee: Gladfelter, chairman of this committee reported that Schley Alley north of 9th. Ave., has been repaired. He further reported the corner of Schley Alley and 8th. Ave. has been rounded out and also Meade St. from Pine St. to Elk Alley has been finished. Bills for this work from Emrich Construction Co., Inc., were received.
It was reported that a water cutoff on 7th. Ave. near N. George St., was extending out far enough to create a dangerous condition. The highway committee to check into this and report it to the York Water Co., if it is their problem.
Engineer Weigle stated he had contacted Kling of the Penna. Highway Department regarding the low condition of N. George St. between 8th. and 9th. Aves. Itwas reported that the excess stones had been removed from the street but nothing had been done to remedy this situation.
Gladfelter reported he was not sure if Emrich Construction Co., had done any repair work on N. Court Ave. to relieve a low condition. He stated he would check into this.
Mayor Gladfelter stated he had been unable to contact Susan Yost regarding the cutting of the hedge on herproperty at Schley Alley between 8th. and 9th. Ave. He will contact her.
The committee was instructed to check on the number of lanterns and barricades in the garage.
It was also decided that no lanterns be given to private contractors for their use.

Fire & Safety Committee: It was reported that cars leaving the service station at N. George St. and 7th. Ave. by way of 7th. Ave., enter N. George St., without reducing their speed thus creating a very dangerous condition. The suggestion was made that the owner of the gas station be asked to caution his customers, those guilty of this, for their own safety as well as the safety of others.

Sanitation Committee: Boyd, chairman stated he received a bill from Raffensberger for work on the sewer line at 1411 N. Court Ave.
He stated the committee had a meeting regarding the delinquent sewer bills and that notices have been sent out to all persons concerned.
The 10% of the cost of the newly constructed sewer line at 6th. Ave. and Pine St., held back to determine proper construction of the sewer line, was paid to James Favino, Red Lion, who constructed this line.
Weigle stated the new sewer line to be laid on Tornita St., would be finished in about two weeks.

Police Committee: Chantiles reported that all of the white cross walks have been painted. Also a small amount of yellow curbs painted completing this.
The question was raised regarding the placing of a white line on the north side of 7th. Ave. at N. George St., creating one lane of traffic on that side of the street. It was thought this would make this intersection more accessible from both 7th. Ave. and N. George St. The committee to check into this.
The committee was instructed to make any repairs to the signal light that may be necessary to put them in perfect condition.
The condition of the gutter on N. Duke St. at 8th. Ave., was brought to the attention of council. It was stated that cars traveling thru this intersection at an excessive rate of speed created a dangerous condition not only to the driver but to pedestrians and property. It was suggested that a sign reading "slow-bad dip" be placed there. The committee to check this.
The committee was ask to check the heights of the stop signs in the borough.
The committee to check into the establighing of a curfew in the borough.
It was stated a meeting of the police committee would be held Monday evening, Sept. 16th.
The question was brought up regarding the illegal arresting of violators of the two hour parking law on the east side of N. George St.
Mayor Gladfelter stated the borough council has the right to establish parking privileges on State Rt. 111 and that council has an ordinance regarding 2 hour parking on this portion of N. George St., and that the ordinance will continue to be enforced regardless who it may effect.
The committee was instructed to have a 2 hr parking sign replaced.

Light Committee: It was decided to arrive at a decision regarding the painting of the signal light a yellow color after the lights have been repaired.

Council extended congratulations to Paul H. Everhart on receiving a plaque from the Penna. State Borough Association for having served 35 years as Borough Treasurer. Council expressed their thanks to Treasurer Everhart for this service to the borough.

It was stated that a new civil defense director would be named.

Terry Rhodes, Jim Fetrow, Don Bell and Dan McComas were present at the meeting and requested that council consider establighing a recreation commission or some form of recreational program for the youth of the borough.
Mayor Gladfelter stated he had taken this thought to the Liberty Fire Co., #1 and they thought they may be able to do something with the 3rd floor of the fire hall which is now vacant. Council stated they would give this their sincere consideration

Miss. Claudia Fishel
1 Latimer St.
York, Pa.

Dear Miss Fishel:

At the last regular meeting of the North York Borough Council discussion was held regarding the possibility of changing the house numbers on Latimer Street to be uniform.

Due to the extreme difference in numbers it was reported that inconvenience has been caused mainly by mail being mis-directed, but that other inconveiences have been experienced.

Council is directing this letter to you in order to let you know of their discussion of this matter, and will appreciate having your comments, thoughts or recommendations on this.

With the best interest of the people of our borough in mind, we remain

Very truly yours,

NORTH YORK BOROUGH COUNCIL.

Secretary.

Miss Wanda Pabst
1 Tarbiner St.
York, Pa.

Dear Miss Pabst:

As the last regular meeting of the York Borough Council disapproved your hard surfacing the possibility of enlarging the force remains on indefinite status to be considered.

Due to the various difficulties in meeting the 1.5 mpa approved last fiscal city engineers have been replaced by part time mid-winterbut just what other circumstances have been experienced.

Council is allocating this dollar to you in order to let you know of their disposition of both matters and will appreciate having your comments although no recommendations on this.

Yours truly yours,

Mary Lou Mercer Collins,

Secretary.

Recommendations to the Borough Council of North York designed to promote more efficient Law Enforcement for the protection and tranquilty of the Borough Citizens.

1. Divide the Patrolman's time between Motor patrol and Foot Patrol. Foot Patroling has been proven to be the most effective deterrent to Crime and Rowdyism in Boroughs of this size.

2. Police protection is needed more during the after dark hours than during daylight hours.
It would be inhuman to expect a Policeman to work 24 Hours a day, every day, but a reasonable amount of hours on the job on a staggered unknown schedule should be the most effective working procedure.
(A person intent on breaking the Law or disturbing the peace in any way will think twice when they are in doubt as to where the Law Enforcement Officer is at any given time.)

3. Provide an adequate Disorderly Conduct Law if this is not already provided for.

4. Establish a strict Curfew Law up to I8 years of age.
No one under this age should be allowed to roam the streets after II:00 P.M.
Enforce this Law and make Parents of violators directly responsible.
i.e. First offense, put the Parents on official record.
Second offense $25 Fine and make each successive offense more severe.

5. Prosecute all violators over I8 when the offense warrants prosecution.

6. Initiate a Deliquency Report to the proper authorities for all offenders younger than I8 when the offense warrants such a report.

7. Have the Borough Officer submit a report in writing at each Council Meeting as to his number of Arrests, Calls, and General Activities of the preceding Month.

These foregoing points could be a tremendous help to the Borough by giving our Policeman some tools to work with, promote the peaceful well-being of the Citizenry in general and help to keep our Community on the respectful level that it has enjoyed in the Past.

The regular monthly meeting of the North York Borough Council was held Monday evening, July 8, 1963, at 8:00 o'clock in theLiberty Fire Hall. The meeting was called to order by the president William H. Everhart. Roll call found the following to be present: Boyd, Gladfelter, Brickner, Whorl, Chantiles, Engineer Weigle and Secretary Shettel. The minutes of the previous meeting were approved on a motion by Whorl and a second by Boyd. Motion carried.

Finance Committee: The tax collectors report was read by Whorl, chairman of this committee. This showed that $12,107.56 had been collected in taxes during the month.
Whorl reported that an american flag and a christian flag have been ordered.

Highway Committee: Gladfelter, chairman of this committee reported that the work of resurfacing and rebuilding of the streets is progressing. He stated that in resurfacing N. Duke St., and a portion of 4th. Ave., the additional cost amounted to approximately $1040.00. He stated also to resurface 6th. Ave. from N. Duke to N. Queen Sts., it would be an additional cost of approximately $1300.00. Gladfelter moved and Whorl seconded that since sufficient patch work has been done on 6th. Ave., the work of resurfacing be held over and included in next years program. Motion carried.
It was further reported that a small amount of patch work had to be done yet.
The need of repairs to Schley Ave., between 9th. and 10th. Aves. was discussed, also the completion of Meade St., from N. Pine to Elk Ave. Council decided to see what the present program will cost before going ahead. It would be easy to call the contractor back for this work asit would take different equipment than used on the original program, and both streets could be done at the same time.

Fire & Safety Committee: Brickner, chairman of this committee had no report.

Police Committee: Chantiles, chairman of this committee reported that all of the curbs have been painted. He further stated all damaged traffic signs have been either replaced or repaired as needed.
A permanent barricade has been placed at the east end of 8th. Ave.
The committee meeting as requested by Mayor Gladfelter was held.
It was reported that cross walks will be painted by Walter Ross.

Sanitation Committee: Boyd, chairman of this committee presented two bills from Raffensberger for work done on the sanitary sewer line at 39 E. 8th. Ave. and 33 E. 10th. Ave. Tree roots were found to be the cause of this trouble at both placed.
The bills were approved for payment.
Boyd further reported he had received several calls regarding the electric pump, but when he investigated everything seemed to be alright.
It was reported that the storm sewers at 6th. Ave. will be cleaned out by Paul Lauer.

Light Committee: No report.

Mayor Gladfelters report was presented by the secretary. This showed the following from his office:

Fines	$2.00
Permits	32.00
Bicycle Licenses	1.75
	$35.75

President Everhart reported he had received a request from Perry Peiffer, secretary of the North York Authority, that borough council advertise for bids for the construction of additional sanitary sewer line on Toronita St. Engineer Weigle was instructed to draw up the necessary specifications.
Councilman Chantiles opposed this movement and stated he thinks a letter should be received from the authority making this request for the advertising for bids.

In view of the fact that only one quotation for a new police radio to meet FFC specifications had been received, this issue will be discussed at a later date.

Whorl moved and Boyd seconded that an order be granted for the payment of all bills subject to final audit. Motion carried.

Brickner moved and Chantiles seconded that the meeting be adjourned. Motion carried.

Respectfully submitted,

Samuel H Shattuck

Secretary.

The regular monthly meeting of the North York Borough Council was held Monday evening, June 3, 1963, at 8:00o'clock in the Liberty Fire Hall. The meeting was called to order by the president William H. Everhart. Roll call found the following to be present: Councilmen Boyd, Gladfelter, Whorl, Chantiles, Wood; Mayor Gladfelter and Secretary Shettel. The minutes of the previous meeting were approved on a motion by Whorl and a second by Gladfelter. Motion carried.

Finance Committee: The tax collectors report was read by Whorl. This report showed that $92.05 had been collected in 1962 taxes, and $7644.17 in 1963 taxes, during the month.
A letter from Link Radio Sales & Service was read. This letter stated that as of October 31, 1963, the Federal Communications Commission has made it mandatory that all transmittor equipment be modified to meet narrow band standards. Link stated they would be able to equip our present police car radio to meet these requirements at a price of $57.50.
Council decided that before anything is done to our present radio we obtain prices for a new 2 way transistor radio that will meet these specifications. The secretary was instructed to write several companies and obtain prices
Whorl stated he had inquired regarding the purchase of an American flag and a state flag. He reported that the most practical flag would be one 3' x 5' placed on an 8' flag standard. These can be obtained at a price of between $60.00 and $70.00.
Council authorized him to purchase these flags and standards.
The payment of $275.00 for the recreation fund of Central School District for supervised summer recreation, was authorized.

Highway Committee: Gladfelter reported that the general patching of the streets has been completed, other than places that might have been missed or which might have developed since the work was completed. It was also decided to correct several spots where patching has been done.
Gladfelter reported that he received complaints regarding the stones which have been placed on Meade St., between Pine St. and Elk Alley, in that they are too thick causing cars to become stuck. He further stated Emrich engineer thought the best thing to do would be to place several applications of tar on the stones until they knit together and then place fine stone on it. This could be done at a cost of approximately $150.00. The committee to check this.
It was reported new curbing is being placed on 3rd. Avenue.
Gladfelter was instructed to contact Engineer Weigle regarding the general repairing of the streets so the contractor will know where to start and also so that any problems can be eliminated, such as drainage problems.
The council will check the streets again prior to the starting of this repairing.

Fire & Safety Committee: No report.

Police Committee: The committee was authorized to purchase additional paint for curbs and cross walks.
The committee chairman Chantiles stated he would call a meeting of this committee as requested by Mayor Gladfelter.

Sanitation Committee: Boyd reported that the control for the pump has been received and installed and the pump is working properly.
It was reported there has been no report from the North York Authority regarding the sewer line at the Land Lumber Co. Council to inquire regarding this.

Light Committee: The committee recommended that a street light be placed in Schley Alley between 6th. Ave. and Eagle St., at the alley extending west to the cemetery. He stated it is very dark and there has been a series of robberies in that vicinity. The committee to check into this.

The meeting was called to order by the president William H. Everhart. Roll call found the following to be present: Councilmen Wood, Whorl, Brickner, Boyd, Chantiles; Mayor Gladfelter; Engineer Weigle and Secretary Shettel. The minutes of the previous meeting were approved on a motion by Whorl and a second by Brickner. Motion carried.

Finance Committee: The tax collectors report showed that $282.75 had been collected in taxes during the month.

Fire & Safety Committee: It was reported that the Liberty Fire Co. #1, would like to purchase flags for the meeting room of the fire hall. They ask borough council if it would be possible for them, council, to purchase an American Flag, a Penna. Flag and possibly a Christian Flag, in as much as the room is used for both fire meetings and borough council meetings. The council decided to have the fire & safety committee check into this. Brickner and Wood stated they would attend the next fire company meeting.

Highway Committee: It was decided that council inspect the streets after the weather permits and decide the amount of general repairing and resurfacing has to be done. It was suggested that it would be an advantage to the general program if the patch work could be started as soon as possible. Engineer Weigle was instructed to draw up the necessary specifications just for patch work and that council advertise for bids for this work. The bids to be opened at the next regular meeting.
Discussion was held regarding a general cleaning of the streets. Council requested that the committee contact West York Borough regarding the rental of their sweeper and driver and have the streets cleaned at the most practical time. The committee to hire any other persons necessary for this work, in addition to the sweeper and driver.

Police Committee: Chantiles reported that the police officers gun has been blued. Boyd moved and Chantiles seconded that the rate of pay for part time police duty be raised to $1.50 per hour. Motion carried.
A letter was read from Transamerican Trucking Co., commending our police officer for the fine work he done in the recovery of stolen merchandise and the apprehension of the guilty parties.

Sanitation Committee: An invoice for work done on the sewer line at 37 E. 9th. Ave. was presented. Discussion was held regarding the number of times this same line has had to be opened. Council agreed to pay this bill. A bill for a lateral line at the Adhesive Research Co. on E. 9th. Ave., was presented. Council agreed to pay this bill.

Light Committee: It was reported that the signal light has not as yet been repaired. This is to be repaired.

Councilman Wood reported he had received a call from Mrs. Orndorff a resident of E. 7th. Ave., regarding the condition of flooding at her property. She stated that at the time of any heavy rain her cellar becomes flooded and feels that it is caused by the low grade of the alley aside of her house. Engineer Weigle was instructed to check this and recommend a way that this condition can be relieved.

Engineer Weigle stated he was awaiting a reply from the state regarding the granting of a permit to Clair Stough of N. George St. He stated that in view of the plans that were made by the state for the intersection of N. George St. and Second Avenue it would be better to hear from the state before any decision is made regarding Mr. Stoughs building on this property.

It was reported that the Land Lumber Co., building now under construction will enter the York City manhole at Tornita St., and thus into the sewer line.

Engineer Weigle was instructed to find out as much information ashe can regarding the north-south spur into the city of York. The secretary was instructed to write the Department of Highways asking them to inform North York Borough of any decisions on this matter.

The Mayors report was read by the secretary as follows:
