Dec. 7, 1964

The regular monthly meeting of the North York Borough Council was held Monday evening, Dec. 7th. 1964, at 8:00 o'clock in the Liberty Fire Hall. The meeting was called to order by the president, William H. Everhart. Roll call found the following to be present: Councilmen: Schmid, Donaven, Gladfelter, Whorl; Engineer Weigle; Solicitor Beers; Treasurer Everhart and Secretary Shettel.

The minutes of the previous meeting were approved on a motion by Whorl and a second by Gladfelter. Motion carried.

Highway Committee: Gladfelter reported that the sealing of the seams in the concrete on N. Duke St., has been completed.

Gladfelter reported that Mr. Fishel a resident of 5th. Avenue complained of water coming into his cellar possibly due to cracks in the alley at his property. Gladfelter stated about 10 gallons of material would be needed to close these cracks at a cost of $.90 per gallon. He stated this was investigated and the material purchased and Mr. Fishel applied the material himself.

An ordinance adopting a portion of Elk Street between Meade St., and E. 6th. Ave., in the borough was read. Whorl moved that this ordinance be adopted and advertised. Schmid seconded the motion. Motion carried.

An ordinance prohibiting the driving of any type vehicle westward on 6th. ave between N. George St. and N. Duke St; prohibiting the driving of any type vehicle eastward on 8th. Ave., between N. Duke St. and N. George St; prohibiting the driving of any type vehicle westward on 9th. Ave. between N. George St. and N. Duke St; prohibiting the driving of any type vehicle eastward on 10th. Ave. between N. Duke St. and N. George St; was read. Gladfelter moved that this ordinance be adopted and advertised. Donaven seconded the motion. Motion carried.

The council decided to purchase all the signs necessary for the one way street program and that these signs conform to the new highway code.

Fire & Safety Committee: No report.

Police Committee: New set of snow tires has been purchased for present police car which can also be used on new car.

New police car has arrived. New radio is not yet available. Old radio will be installed in new car it is the contract that Beasley will stand the cost for transferring radio. Because of delay of new radio Link will install it free of charge when it arrives.

Survey hasbeen made of one way street signs and amount of poles needed. Prices seemed way out of line. Mr. Ross and Geisler made a trip to Harrisburg and found that they could be purchased from another source at a much better price and he will probably report on this.

There has been a request by Goodling Oil Co. that street signs be placed on George and Second Ave., and Second Ave. and Albright Ave. due to the mail delivery, they are often told they are in W. Manchester Twp. instead of North York. This has been causing a delay in their delivery.

Amount of poles needed for one way streets 25. Amount of do not enter signs 8. Amount of one way arrow signs 17. It can safety be said that a cost of many other signs that need replaced in the borough will exceed $500. more.

Council instructed the police committee to have the new police car lettered.

Sanitation Committee: It was reported that the sewer line in the 1400 block of N. Court Ave., is filling up. It was decided to have this line flushed out periodically.

A bids for the collection of garbage in the borough that had been received were opened.
A bid was received from Paul P. Lauer for the amount of $440.00 for a period from Jan. 1, 1965 to June 30, 1965.
Whorl moved that the bid of Mr. Lauer be accepted. Schmid seconded the motion. Motion carried.

Light Committee: No report.

Donaven moved and Gladfelter seconded that the meeting be adjourned. Motion carried.

October 5, 1964.

The regular monthly meeting of the North York Borough Council was held Monday evening, October 5, 1964, at 8:00 in the Liberty Fire Hall. The meeting was called to order by the president William H. Everhart. Roll call found the following to be present: Councilmen: Donaven, Kessler, Gladfelter, Whorl, Schmid, Chantiles; Mayor Ross; Treasurer Everhart; EngineerWeigle; Secretary Shettel.

The minutes of the previous meeting were reviewed by the members of council and were accepted on a motion by Donaven and a second by Whorl. Motion carried.

Sanitation Committee: Donaven, chairman of this committee reported that he had checked the water condition at the intersection of E. 8th. Ave., and N. Duke St., during a heavy rain and everything seemed to be satisfactory. This investigation was made because of water entering the cellar of Mrs. Louise Everhart who lives on the south east corner of the intersection and thought to be caused by the storm sewer. This condition will be investigated further.
Donaven stated that there are no drawings available of any of the storm sewers in the borough, and further they were installed a great many years ago and all of them probably are in need of repair. This to be investigated further.
The condition of the sidewalk at the property of Jason Richcrick on N. George St., was again brought to the attention of council, regarding its settling. Council felt that the condition is not bad enough to warrant doing anything at the present time.
The question of the periodic inspection of the sanitary sewer pumps was discussed. It was the thought of council that these should be checked at least twice a year to be sure they are working properly. Donaven was asked to contact the Industrial Electric Company and have someone from that company acquaint him with the operations of this pump.

Finance Committee: The tax collectors report was read showing that $322.49 had been collected in 1964 taxes during the month.

The question of investing money from the sewer fund which had been discussed at the last meeting was discussed further. Whorl stated he had contacted Solicitor Beers, who said he saw no reason why this could not be done, however he stated he would check the matter further. Whorl to check with J. Carl Foster, the solicitor for the authority as to his reaction to the legality of this.

Highway Committee: Gladfelter, chairman of this committee reported that the terrace at a property on North George St., has been resodded, and a letter of thanks has been received from the owner of the property.
It was reported that Emrich Construction Co., has been contacted regarding the resurfacing of Sigsbee Ave., and they stated they will try to come into the borough this week and do the work.
Gladfelter reported that an additional load of stone will be placed on Dalrymple Street to relieve a complaint from a resident of the borough.
The question of erecting some sort of barrier or sign indicating a dead end at the east end of 9th. Ave., was discussed. This to be checked.
Regarding the finishing of N. Court Ave. between 7th. and 8th. Aves., gladfelter reported that Emrich Construction were checking with the York Bank & Trust Co., and M. H. Wolfgang regarding their intentions toward their properties, which would tie in with these repairs.
It was stated that Lloyd Kauffman inquired regarding the adoption of the street at his property at E. 6th. Ave., and Meade St., Council stated that he had never formally told council that the street had been constructed, according to specifications, and was ready for adoption. Council to take action on this when they receive word from Mr. Kauffman.
The committee to check all signs and install and repair any that need it.
The committee is to check with the Penna. Dept. of Highways regarding the yellow line at the intersection of N. George St., and 7th. Ave., in that it may be changed to relieve the flow of traffic at this intersection.

Fire & Safety Committee: No report.

Light Committee: No report.

Police Committee: A question of the awarding of the bid for an automobile for the police department, which was held over from the last regular meeting was again discussed. It was decided to award the bid to Carl Beasley as being the lowest bidder, in view of the information received from both bidders regarding the style and model of the cars. Whorl suggested that the Beasley company be informed that council would accept the bid for exactly the amount shown on their bid and that this should be included in the motion made. Chantiles moved that the bid of Carl Beasley Co., be accepted specifying that it be accepted on the basisof their bid for a 1965 Ford, with 119" wheel base, Custom Model and 352 cu. in. displacement engine, police power pack for the amount of bid being $749.83.

Chantiles stated there would be a meeting of the police committee at which time specifications would be drawn up for a radio to be installed in the police car.

Chantiles moved and Gladfelter seconded that an order be granted for the payment of all the bills subject to final audit. Motion carried.

Whorl moved and Kessler seconded that the meeting be adjourned. Motion carried.

Respectfully submitted,
Samuel H. Lettie
Secretary.

YORK COUNTY COURT HOUSE • YORK, PA.

April 16, 1964

Mr. Samuel Shettel
Secretary
North York Borough
1039 N. Duke St.
York, Penna.

Dear Mr. Shettel:

This is in regard to our recent informal meeting with the Borough Councilmen of North York.

I feel that the street plan as given to me by Mr. Everhart is possibly the best one that could be worked out. It is, as I understand it, as follows:

2nd Ave. - two way
3rd Ave. - two way
4th Ave. - two way
5th Ave. - two way
6th Ave. - one way eastbound from N. George to N. Queen Duke
7th Ave. - two way
8th Ave. - one way westbound from N. Duke to N. George
9th Ave. - one way eastbound from N. George to N. Duke
10th Ave. - one way westbound from N. Duke to N. George

There was some discussion concerning Duke St. between 5th Ave. and 11th Ave. with the two (2) proposals being considered. That is, making it one-way and permitting parking on both sides of Duke St., or leaving it two-way and prohibiting parking on one side of Duke St. I personally favor keeping it two-way if at all possible, and possibly removing parking on one side. It will not be too difficult to do this on the northern portion of Duke St. However, there may be opposition on the southern portion as it is not immediately apparent where residents in that area could park their vehicles. It will be an inconvenience to some residents in that area, but I have found from past experience that when a parking prohibition is established the local residents have been able to find other spaces not too far distant from their homes.

Concerning the traffic signal at the intersection of N. George St. and 7th Ave., this signal, in my opinion, is substandard. Manchester Twp. has recently installed new traffic signals immediately to your north, and prior to that time I felt

BOARD OF COMMISSIONERS

EDWARD J. FITZGERALD, YORK, PENNSYLVANIA

April 16, 1964

Mr. Samuel Shettel

they had the two (2) worst installations in York County, with the possibility of the installation at 7th Ave. and George St. being next. With Manchester Twp. having made new installations, that leaves 7th Ave. and George St. as having the dubious distinction of being one of the worst signal installations in the area.

I have received information from the State Highway Dept. that on January 1, 1967, the Federal Government is going to withhold funds for the maintenance of Federal Aid Highways unless signs, signals and markings conform to minimum standards as contained in the Manual on Uniform Traffic Control Devices.

Unless North York Borough desires to run the risk of not benefiting from Federal funds, it will be necessary to rebuild the traffic signal installation at the intersection of 7th Ave. and N. George St. It should have double indicators in all directions. We also discussed modernizing the controller at this intersection and installing at least a semi-actuated controller. There is life left in the old controller, though it is badly in need of preventive maintenance, but the old controller will not handle the present day traffic load. It is a fixed time controller and not capable of adjusting itself to traffic demands at various times and, consequently, causes a great deal of "green" time to be wasted on the side street when it is not needed. A semi-actuated controller would overcome this and it is recommended.

I believe I mentioned at the time of our meeting that Reigelmeier's Traffic Services, 4400 Berkley, Harrisburg, phone Kingsley 5-5847, has given very good service in this area and is, in fact, the only representative of traffic signal equipment whom you can depend upon in an emergency upon short notice, as there is noone else in the area. Signals can be purchased from other companies, namely:

Automatic Signal Co., Norwalk, Conn.
Crouse-Hynes, Syracuse, New York
Southern Signals, Shreveport, La., and the
Econolite Corp. of Los Angeles, Calif. represented by
Traffic Control & Engineering Co.
647 Baldwin, Bridgeville, Penna.

April 16, 1964

Mr. Samuel Shettel

I am not familiar with the Econolite products, and their salesman has never called on me since I have been in York.

As an immediate step, I would suggest that maintenance be given the existing controller at 7th Ave. and N. George, that the northbound green lens and signal section be replaced and that all signal heads be painted Federal Yellow so as to make them more easily apparent.

If and when you decide to replace the controller at 7th Ave. and N. George, it could be stored for future use, or it could be installed at an intersection such as 7th Ave. and Duke St.

There were two (2) intersections at which I noticed four-way stop signs and I believe, after discussions, it was decided the stop signs on Duke st at 6th Ave. could be removed and the stop signs on 7th Ave. at Duke St. could be removed. I feel this should be done very cautiously, however, and notices be given to the motoring public. It would also be advisable to have a policeman monitor the intersections in his spare moments after the signs are removed so that he can caution anyone that has become careless concerning the stop signs at these intersections.

The final matter discussed concerned peak hour parking on N. George St., and while this will eventually be necessary, i.e., to prohibit parking on the east side of N. George in the evenings and the west side of N. George in the mornings, I feel that placing a modern controller at the intersection of 7th Ave. and George St. may possibly postpone the necessity of prohibiting parking during peak hours. It would certainly be worth a try, and in the event we find out it does not postpone the necessity of removing parking, nothing has been lost because that intersection is badly in need or resignalization anyhow.

As I mentioned at the meeting, I would appreciate the opportunity of working with Mr. Reigelmeier in regard to signalization at 7th Ave. and N. George St. Should you work with someone other than Mr. Reigelmeier, I feel that it would be most advantageous if you would advise me so that I may work with

April 16, 1964

Mr. Samuel Shettel

them. I have more faith in Mr. Reigelmeier than anyone else, however, and I feel certain that he could do the job just as well without my assistance.

I am grateful for the opportunity to have been of service to you and I hope that this will be a continuing relationship now that it has started. Please feel free to call upon me at any time for any matters concerning traffic.

Very truly yours,

Charles M. Upham, Jr.
Traffic Engineer
