Whorl moved that borough council accept the calculations of the York Bank & Trust Co., and pay the amount of $6000.00 plus interest, liquidating the mortgage on the Liberty Fire Co., building, in lieu of the amount of $5300.00 which was previously stated by the Fire Company. They stated the cost should be divided equally between the two municipalities showing that our cost would be approximately $3,448.69. They stated the contribution submitted by the borough as of Feb. 7, 1966 would not be adequate due to change of prices of control equipment. The city further stated they would continue to operate the signal light as it is as the light is operating as per state specifications.
A letter was also read from Charles Upham York County Traffic Engineer stating that the city will not make any additional changes to this light unless North York agrees to pay 50% of this installation. He ask council to let him know of any decision they may make. He said he had received complaints recently regarding traffic backing up on the North York hill traveling south on George St. Mr. Upham will be contracted to see if he has contacted York City.

He stated that if the property owners would contact him he will prepare the necessary petitions including the description of the properties.

The regular monthly meeting of the North York Borough Council was held Monday evening, Sept. 11th., at 8:00 o'clock in the Liberty Fire Hall. The meeting was called to order by the president William H. Everhart. Roll call found the following to be present: Councilmen Gladfelter, Whorl, Schmid; Mayor Lucian Lehr; Solicitor Beers; Engineer Weigle; Treasurer Everhart and Secretary Shettel. The minutes of the previous meeting were approved on a motion by Whorl. Schmid seconded the motion. Motion carried.

Mr. C. J. Beshore and Mr. Frank Updegrove resident andproperty owner of Chapel Drive were present at the meeting in response to certified letters they received from council regarding the placing of curbing at their properties on Chapel Drive and Olympia Ave. These curbs are needed in order that street repairs can be made. Mr. Beshore stated that he had no intention to place curbs at hisproperty because there are curbs there now and he did not see any sense in placing a full curb there when it is unknown where a driveway may go when homes are built on these lots. He stated that to place a curbing and then tear it up to place a driveway was very foolish and costly. He stated that one of the lots has been sold and building is expected to be started in the spring and if borough council saw there way clear of holding this until that time everything would work itself out. He further stated that if council insisted in going ahead and placing the curbing and charging him for it he would fight the action taken.
Mr. Updegrove stated that he too was concerned about a depressed curbing for a driveway in the event his lot was sold and that he would go along with Mr. Beshore and agree with any decision he makes.
Council informed these gentlemen that in as much as the letter has gone out to them giving them thirty days in which to place this curbing, they, council would proceed with the terms of the ordinance and place the curb and charge them for it and if it is not paid leins would be filed against the property.

Public Works Committee: Gladfelter reported that almost all of the patch work in the borough has been completed. He stated Roadite Inc., is at present working on the alley north of E. 10th. Ave.
It was also stated no parking signs would be placed on W. 9th. Ave., in preparation to refinish this street.
A drainage problem was reported at the newly constructed parking lot at 1413 N. George St. It was reported that this problem has been corrected.

Public Safety Committee: Discussion was held regarding the ordinance now in effect eliminating the parking of trucks, trailers, semi-trailers, etc., for anything other than deliveries. The present ordinance limits these trucks to four tons gross including the load. In order to eliminate further parking of trucks it would be necessary to amend thisordinance specifying exact weight limits. Council thought that an amendment specifying trucks in excess of 3/4 Ton capacity would be a good weight limit. Whorl to check into the exact weights of trucks in connection with a specific type license and give this information to Solicitor Beers so that he can amend this ordinance accordingly.

Solicitor Beers was ask to check into the procedure to be taken regarding the annexing of a single property into the borough from Manchester Township. It was further stated that another property owner in this township will probably ask to be annexed into the borough.

A letter of resignation was read by the secretary from Councilman Harold Kessler. He stated that conflicting conditions made this necessary. Whorl moved and Gladfelter seconded to accept this resignation. Motion carried.
A letter of resignation was read by the secretary from Councilman James Donaven. He stated that he will be moving out of the borough and therefore not be able to serve the remainder of his term as councilman. Whorl moved and Gladfelter seconded to accept this resignation. The secretary to send both of these gentlemen letters of thanks.

Sanitation Committee: It was reported that the sewer at 1137 N. Duke has been checked and it was found the trouble was the responsibility of the property owner.

It was further reported that a storm sewer on 7th. Avenue at Central High School was breaking down causing a dangerous situation. Engineer Weigle was ask to check into this.

A letter was received from Crime Clinic of York County Inc. Council decided to wait to see what action may be taken by the York County Commissioners and other muncipalities.

The regular monthly meeting of the North York Borough Council was held Monday evening, July 10, 1967 at 8:00 o'clock in the Liberty Fire Hall. The meeting was called to order by the president William H. Everhart. Roll call found the following to be present: Councilmen Callahan, Gladfelter, Schmid, Whorl, Mayor Lucian L. Lehr; Engineer Weigle, Treasurer Everhart and Secretary Shettel. The minutes of the previous meeting were approved on a motion by Callahan and a second by Schmid. Motion carried.

Mr. Walter Durgin and Mr. Stuart Doll, both residents of Fifth Avenue were present at the meeting requesting that council do something to relieve a smoke condition in this area of the borough. They stated that this smoke is coming from the incinerator of the York Suit Co. They stated that this incinerator is kept burning all night until the early hours of the morning. The smoky condition is such that the residents of this area are not able to be on their porches and have to keep their windows in their homes closed. They further stated there are a great many older folks in this area and they are the most effected by this smoke. Council informed them this situation would be looked into and every effort made to have it relieved.

These gentlemen further presented a petition which had been signed by seventy-six (76) residents of Fifth Ave., and surrounding avenues asking that action be taken by borough council for the establishment of stop signs and painted cross walks, to curb the high rate of speed and unsafe crossing conditions, and as parents and property owners they felt the need of these improvements. They presented a map of the signs and cross walk they felt were needed to insure this safety. Council informed them a check of this would be made by the Public Safety Committee and do whatever necessary to relieve this situation.

Highway Committee: Gladfelter reported that all of the curbs have been painted and also cross walks have been painted. He stated that all residents of Chapel Drive have been contacted regarding the placing of curbing prior to any street repairing. It was decided that any corbing not being laid, council would have it done and bill the property owner for this work.

The issue of the proposed new street lights was held over until the next meeting due to the absence of the representative of the Metropolitan Edison Company.

Tom Yeaple, President; Jim Frey, Fire Chief; Terry Rhodes, Secretary respectively of the Liberty Fire Co. They presented the following recommendations.

A recommendation was made regarding the placing of a fire hydrant in the vicinity of the York Lumber Co., on Toronito St. They stated the only hydrant available was about three and one-half blocks away from this location at the corner of 11th. Ave. and Spahn Ave.

That council check into the condition of the fire hydrant at Pine St. and E. 5th. Ave. They stated this hydrant should be replaced because of the fact that there is no pressure in this hydrant at all.

They suggested that all of the fire hydrants in the borough be painted. They stated that the fire company would paint these hydrants if council furnishes the paint. Council will investigate as to who is actually responsible for the painting of these hydrants.

It was further recommended that a red signal light be placed on N. George St., to stop traffic to enable the fire apparatus to leave the fire hall easier.

The officers of the fire company stated that they felt the fire safety laws were not sufficiently obeyed in the borough. Council stated they would go along with the fire company in the enforcement of these laws.

It was ask that a parking space be established at the fire hall for the fire chiefs car.

Suggestion was made that it may be well to eliminate parking on the east side of N. George St. It was decided to wait until the red signal light is installed to see if the problem is eliminated. This parking to be eliminated opposite the fire hall.

The fire chief reported that two alarms were answered by the fire company during the month of January. One a car fire at 11th. Ave. and N. Geo. St., and the other at the Weis Food Market at the North Gate Shopping Center.

It was decided to review the insurance policies of the fire company, the ambulance club and the borough council to see if there are any duplications.

Council stated that they appreciated the visit to council by these members of the fire company and that council would review the recommendations and cooperate with the fire company in every way.

Highway Committee: It was reported that the surface of the street at 6th. Ave., and N. Queen St., was breaking up. This to be investigated. Ave., between the hours of 7 AM and 5 PM, Monday thru Friday. Gladfelter moved this ordinance be drawn up by Solicitor Beers for adoption. Callahan seconded the motion. Motion carried.

The regular monthly meeting of the North York Borough Council was held Tuesday evening, January 3, 1967, at 8:00 o'clock in the Liberty Fire Hall. The meeting was called to order by the president William H. Everhart. Roll call found the following to be present: Councilmen Callahan, Donaven, Whorl, Schmid, Gladfelter; Mayor Lucian Lehr; Solicitor Beers; Secretary Shettel and Treasurer Everhart. The minutes of the previous meeting were approved on a motion by Callahan and a second by Whorl. Motion carried.

Mr. Cramer of the Goodling Electric Co., was present at the meeting. He stated his company was anxious to know what action borough council had taken regarding the traffic light at the intersection of N. George St., Parkway Blvd., and 2nd. Avenue. He was informed that borough council had taken action at their August meeting and would pay one half of the cost of the reconstruction of this light, however the amount should not exceed 1500.00. He was further informed a letter had been forwarded to Mr. Swartz of the City of York, and Mr. Swartz stated the city was awaiting action from the state and we would be informed when any action will be taken.

Highway Committee: Mr. Gladfelter presented invoices for patch work done in the borough and also for snow removal work done in the borough. Both of these being performed by Frank H. Scholl. Council approved the payment of these bills, stating they felt Mr. Scholl had done a very good job in removing the snow.
A letter was received from the Fifth E.U.B. Church complimenting the borough on the fine job they had done removing the snow.
Mr. Gladfelter is to contact Mr. Scholl in reference to any more snow removal that may be necessary and instruct him to be sure to clear all fire hydrants and intersections.

Sanitation Committee: It was reported that the grill at the storm sewer at 7th. Ave. and N. George St., should be repaired. It was decided by council to have all of the storm sewers checked at the same time.

Solicitor Beers stated that he had not advertised the Air Pollution Ordinance as there are several townships who have not advertised their ordinance, one being Spring Garden Township. He stated that there are differences in all of these ordinances and these need to be checked. He stated that the air pollution board is having these ordinances coordinated.

Public Safety Committee: Schmid moved that borough council purchase a 1967 Chevrolet Police Car from the Emrich Chevrolet Co., who were the lowest bidders on this car. The present police car to be used as a trade-in. The cost to be $1350.00 as bid. Gladfelter seconded the motion. Motion carried.

The question of paid fire drivers for the Liberty Fire Co., to be held up for the present time.

Finance Committee: Whorl read the Tax Collectors report which showed that taxes to the amount of $421.06 had been collected during the month.
