Roll call showed the following to be present: Councilmen Callahan, Rife, Richcrick, Whorl; Engineer Weigle; Solicitor Beers; Mayor Keener and Secretary Shettel. The minutes of the previous meeting were approved on a motion by Rife. Callahan seconded the motion. Motion carried.

Richard Morris, chairman of the Planning & Zoning Committee was present at the meeting and presented a letter petitioning borough council to reclassify the area in the borough known as 30, 32 and 34 W. Eleventh Avenue from a resident district R-2 to Commercial "C". The area is bounded on the north by West Manchester Township, on the east by a commercial area and on the south by Lebanon Cemetery.
The following reasons were given for this request and in support of the boards petition:

1. The area is bounded on all sides by commercial areas.
2. There are only three residences in this area.
3. Potential increase in tax revenue to the borough is possible.
4. The area is suitable for commercial activity.

Callahan moved that council recognize the petition. Rife seconded the motion. Motion carried.
Council decided to have the solicitor check into the legal procedure needed to reclassify this area.

Public Works Committee: Engineer Weigle stated he had not as yet checked the alley north of 5th. Avenue between N. Duke St. and N. Queen St. He stated he will do so. Callahan was asked to check into the additional work done by Grove at the borough garage.

SANITATION COMMITTEE: At this time the garbage bids received were opened for review. There was only one bid received from Mr. Paul P. Lauer. This bid was submitted as requested with alternatives of a one or two year contract. The amount of this bid was:

Alternate I	One year	$11,880.00
Alternate II	Two years	$24,480.00

Callahan moved that the bid be accepted and awarded to Mr. Lauer for a period of two years. Rife seconded the motion. Motion carried.
The contract is to be executed between council and Mr. Lauer.

It was reported that a new coil was installed at the electric pump by the Industrial Electrical Company.

PUBLIC SAFETY COMMITTEE: A report was given by Mayor Keener as to the number of new signs that are needed in the borough. Also the number to be repaired.

It was reported that the new street light had been installed at Laurel St. and N. Duke St.

Discussion was held regarding the newly installed signal light at E. 7th. Ave., and N. George St. It was stated that a light or some indication such as "Walk" should be placed at the southwest corner of the intersection so that pedestrians would not have to look at the extreme end of the intersection as to when they may cross the street. This issue to be considered further.

The Chief of Police report was read by Councilman Rife.

Mayor Keener ask council if they would consider the possibility of reimbursing the extra policemen for time lost from their work when they need to attend court in the interest of the borough. This issue was turned over to Schmid for consideration and have him bring his recommendations to borough council.

The Mayors report showed that $24.00 had been collected in fines and $68.25 in permits during the month.

Discussion was held again regarding the ordinance prohibiting trucks parking on the streets of the borough. It was stated that the ordinance was drawn up for a three fold purpose. To eliminate damage to streets, to eliminate noise of refrigerated trucks, and to improve flow of traffic in the borough. It was also stated that a weight limit of 8000# effected a larger number of trucks than intended. It was recommended that we either raise the weight limit to 12,000# or eliminate the ordinance entirely. Callahan moved and Richcrick seconded that the ordinance relative to trucks of certain weight limits operating on the streets of the borough be eliminated. Motion carried.

A plan for the painting of cross walks at N. George St. and E. 7th. Ave., as prepared by Mr. Charles Upham was presented and discussed. The same type of cross walks to be used on both the north and south side of the intersection. The crossing on the north side of the intersection to be used by the school children.

The P. O. S. of A. Lodge was granted permission to use the rear room on the second floor of the borough hall as a meeting room one night a week at a rental fee of $60.00 per year. Callahan moved that this permission be granted. Rife seconded the motion. Motion carried.

The proposed budget was read and discussed. Rife moved that the budget be accepted. Callahan seconded the motion. Motion carried. The necessary advertising to be done before final adoption.

Richcrick moved that an order be granted for the payment of all of the bills subject to final notice. Rife seconded the motion. Motion carried.

Rife moved that the meeting be adjourned. Callahan seconded the motion. Motion carried.

Mr. Cleason Crone a resident of Laurel St., was present and stated that cars have received parking tickets because of their parking in a driveway. He ask whether there is any distinction shown regarding who parks where and when. He stated there are cars parked at this same spot and have not received any tickets. This problem was turned over to the Mayor and Police Committee for investigation.

That gas be furnished for the fire apparatus amounting to approximately $7.00 per month.
It was reported that at present there is a total of $4000.00 in the apparatus fund. Also that it is necessary to replace apparatus every ten years, and that the older piece of equipment should be replaced next year. This replacement would amount to approximately $30,000.00. The committee to consider these requests and present their recommendations when the budget for 1969 is prepared.

He further stated that it is an unpopular ordinance that no one wants to enforce, but that it is an ordinance that can be enforced. Gibbs moved and Callahan seconded that the truck ordinance be rescinded. The result of this motion showed three (3) ayes and three (3) nays. President Everhart cast a deciding nay vote defeating the motion.

The regular monthly meeting of the North York Borough Council was held Monday evening September 9th. 1968, at 8:00 o'clock in the Borough Hall. The meeting was called to order by the president William H. Everhart. Roll call found the following to be present: Councilmen: Whorl, Gibbs, Richcrick, Rife, Callahan, Schmid; Engineer Weigle; Solicitor Beers; Secretary Shettel. The minutes of the previous meeting were approved on a motion by Whorl and a second by Gibbs, with a correction made in the minutes regarding the placing of stone at the parking lot of the Goodling Electric Co. The minutes stated the stones were to be ordered and placed. Richcrick stated the stone have been ordered and already placed. Motion carried following this correction.

Mr. Stultz a resident of 3rd. Avenue was present and ask council what had been done regarding the drainage problem at 3rd. Ave. and Albright Ave. This is believed to be caused by the Water Co., when they replaced a portion of the avenue after they installed a new water line. Engineer Weigle stated he had contacted the Water Co., and they stated they would relieve this situation. Weigle stated he would check further.

Mr. Stultz also ask if any decision had been reached by council regarding the ordinance passed prohibiting the parking of trucks on the streets of the borough. In the absence of the Mayor no decision was reached but council stated the ordinance would not be enforced until a definite decision has been made.

It was reported that the concrete gutter replaced by the York Water Co., on N. Court Ave., from Laurel St. to E. 7th. Avenue was breaking down. Weigle was instructed to contact the York Water Co., to have this corrected.

Highway Committee: It was reported by Councilman Callahan that a new roof was needed on the garage. He was instructed to contact several contractors regarding prices. This is to be repaired.

It was reported that the newly installed storm water sewer has been completed by Denton R. Fitz. This sewer is located at the corner of W. 8th. Avenue and N. George St.

It was reported that the modernization of the traffic signal light at 7th. Ave. and N. George St., is progressing in that poles and some wiring have been placed.

Borough Council received a letter from the York City School District leasing a portion of their property south of the borough, to be used by the borough for recreational purposes. A lease will be forwarded to council for signatures.

The dead end sign which was ordered has been received and will be placed. This sign to be placed at the east end of E. 7th. Avenue.

Public Safety Committee: It was decided by council to set up a meeting with Mr. William Craley, Maintenance Supervisor of York Central School District regarding the possibility of setting up new traffic directions of the school busses.

Mayor Keener reported that $14.00 had been collected in fines from his office and $30.00 in permits collected.

Discussion was held regarding the possibility of having police on duty on Sundays. It was stated that any number of persons are violating traffic laws, especially at Laurel St. and N. George St., in that they are entering George Street from Laurel Street which is a one way street going east. The mayor to be notified of this and some decision is to be reached.

It was reported that up to this time there is no sign at Moley's Restaurant on N. George Street. Mr. Moley was instructed to install this sign to prevent any person from leaving his parking lot onto N. George St. The mayor is to be notified of this in order that Mr. Moley may be contacted and have this sign installed.

The York Telephone & Telegraph Co., requested council to give them permission to install a public telephone booth on E. Seventh Avenue opposite the York Central High School for the convenience of persons needing to use a phone. They stated that if any problems arise from this council should give them thirty days notice and the phone will be removed. Richcrick moved and Schmid seconded that this permission be granted. Motion carried.

Sanitation Committee: Mr. Gibbs stated he and Mr. Burkhart of the Industrial Electric Co., had inspected the pump of the sanitary sewer following reports that it was not functioning correctly. He stated that the alternator was not working correctly which caused the warning light to remain lite. Mr. Burkhart stated that be believed lightening had struct into it. He stated that some tension gave out in some of the contacts. The alternator has been corrected as good as possible. A new alternator has been ordered and will be installed as soon as it is received.
Gibbs further stated he believes a dehumidifier is needed at the pump in that there is a great amount of condensation, and this is getting into the oil. He was instructed to get prices on a dehumidifier.
He further stated that he thought council should get some kind of an outfit to clean out the pits with a detergent or solvent; as it is very necessary that this be done.

It was decided that specifications for garbage bids be drawn up as it will be necessary to advertise for bids to be awarded at the December meeting.

The mayor to be contacted regarding the cutting of weeds in the borough.

August 5, 1968

The regular monthly meeting of the North York Borough Council was held Monday evening, August 5, 1968 at 8:00 o'clock in the Borough Hall, 1040 N. George St. The meeting was called to order by the president William H. Everhart. Roll call found the following to be present: Councilmen, Rife, Whorl, Gibbs; Solicitor Beers; Engineer Weigle; Treasurer Everhart and Secretary Shettel. The minutesof the previous meeting were approved on a motion by Whorl and a second by Rife. Motion carried.

Mr. Tassi, Mr. Gibbs and Mrs. Stultz, all residents of 3rd. Avenue were present at the meeting to discuss a drainage problem which is in existance at their residences since the Water Company laid a new line in Albright Ave. Following a discussion on this issue council instructed Engineer Weigle to check into this and contact the York Water Company if there are any changes to be made, or situations corrected.

The above persons along with residents of Laurel St., discussed the truck ordinance which was passed and is now in force. They ask council to interpret the ordinance as to just what type of trucks were involved. They stated that there are trucks being used by persons as meansof transportation to and from their work. Solicitor Beers stated that according to the vehicle code the ordinance is legal and council only had two alternatives. That is to enforce the ordinance and if there are any protests made by persons being prosecuted to take it to the courts and have a decision made; or have the ordinance rec¢nded entirely. The residents were ~~s~~told that council would make some kind of a decision and they would be informed of this.

The question was raised by residents regarding the extension of Latimer St., to 2nd. Avenue. They ask if this was actually a street and whose responsibility it was. Engineer Weigle to check into this and report to council.

A representative of the Topflight Tape was present and stated that he had received the petition from our Solicitor regarding the abandoning of the east end of 8th. Ave., so the Topflight Tape Co., could extend their building. He stated that he felt the company could not go along with several articles in the petition and ask council to reconsider. He stated that if they wanted this street abandoned they would have to sign this petition. However he ask council if they did not sign the petition would they, council, still allow them to put in a storm sewer and black top over it. Council stated they saw no objection in this. Both Engineer Weigle and Solicitor Beers agreed to this.

It was reported that all of the general repairing of the streets has been compleated by the contractor, Denton Fitz.
The storm water sewer at 8th. Avenue has not as yet been constructed by Fitz, but Weigle stated this would be done shortly.

It was stated that in replacing the concrete gutter on N. Court Ave., from Laurel St. to 7th. Ave., it is felt that the Water Co., did not do a very good job. This is to be checked and the Water Co., notified if there are any changes to be made.

It was reported that the construction of the new traffic light at 7th. Ave., and N. George St., has been started. It was decided that it will be well to wait to paint any lines or crosswalks at this light, until it is finished.

Gibbs reported that the weeds were cut on that part of property of York City School District which is to be used by the borough as a playground. It was stated that no word has been received from the York City School District. The school board will be contacted.

It was reported that traffic signs have to be repaired. This is to be done.

Mayor Keener reported the following from his office:

Bicycle Licenses	.75
Permits	81.25
Zoning Hearing	20.00
Fines	14.00

Council requested that the highway committee order stone and arrange to have the Goodling Co., instruct where they are to be placed in order to remedy a bad condition, at Albright Ave.

It was reported that R. W. Raffensberger had cleaned out all of the sanitary sewer lines and manholes. Mr. Raffensberger has made recommendations as to the repairing and maintenance of this line. These recommendations to be discussed with Raffensberger by the Sanitation Committee.

The reconditioned desks for the offices were received. Keys were made for the hall. Mr. Berkheimer is to be contacted regarding painting. It was further reported that the council table should be received in about a week.

It was decided to place $5000.00 on a certificate of deposit, from the sanitary sewer fund.

Whorl moved and Gibbs seconded that an order be granted forthe payment of the bills subject to final audit. Motion carried.

Rife moved and Whorl seconded thatthe meeting be adjourned to meet Monday Sept. 9th. Motion carried.

Respectfully submitted,

Samuel H. Shettel

Before regular business, President called on Mrs. Harris who acted as spokesman for a group of ladies from Pine Street/E. Fifth Avenue area. They expressed desire for play area for local children, specifically the area below 5th. Avenue along the creek which has much flat land. Requested Borough to have it cleared. As this area is in Manchester Township, and the land itself is owned by the School District of the City of York, it may not be possible to consider; however, it was decided to check with City Schools to determine availability and on what terms. Mr. Beers also to request permission of State to apply the above proposed regulation also to North George Street.

Mayor Keener reported on complaint received of condition of alley from Duke to Court at rear of East 8th. Avenue homes. This does not appear on Borough Map as an adopted street or roadway and thus must be a private road. Officer Geisler said a number of the abutting property owners had so indicated a couple years ago. It was suggested that the Air Pollution Control office be requested to re-check it when it is in use for possible reclassification.
